To Whom It May Concern:

Rob Hamilton ,also known as the Concrete Philosopher,came recommended to Andras Place Co-op through one of our contractors.He has proven to be an asset, and as of July 2007, we have added him to our regular contractors list.

In performing the needed repairs at our co-op, he was diligent in his tasks,he provided excellent knowledge of his craft and he possesses a very good work ethic. His advice on solutions to our numerous leaks and cracks gave us great confidence in his ability to complete the job at hand, and he did so to our satisfaction.

I would highly recommend Rob Hamilton and his credentials to any company needing a job well done.

For any further info, please call the above listed numbers.
